### Description

The Spectra Galaxy PH 256/30 AAA Printhead is an inkjet printhead offering complete fluid support and signal processing capabilities for solvent, UV-curable and aqueous inks at resolutions up to 900 dpi.

Four electrically independent piezoelectric slices, each with 64 addressable channels, are combined to provide a total of 256 jets. The nozzles are arranged in a single line at a 0.010 inch distance between nozzles.

### Features

- 28 picoliter calibrated drop size
- Resolutions up to 900 dpi
- 256 individually addressable, inline nozzles
- Orientation independent
- Supports solvent, UV-curable and aqueous inks
- Head Interface Board for serial data transmission
- Ink reservoir, deaeration system, and fluid filter
- Ink level sensor
- Temperature control
